

Healing Course 2026/2027/2028

Application Deadline
28 September 2026

Honouring the Past, Embodying the Now

The Healing Course is the cornerstone of the International School of Intuition and Healing - authored by Sue Allen, whose legacy continues to shape and inspire our work. Since her retirement in 2021, the School has grown into a global community, with a thriving in-person presence in both London and Cape Town.

For those around the world, our online Healing Course continues to expand - connecting students across continents in powerful, transformative work.

Our in-person and online Healing Courses are rooted in the original teachings and infused with fresh energy. Held by a dynamic team, they offer deep transformational healing for those ready to step in, embody their own healing journey, and grow into internationally accredited energy healers.

About the Course

The Energy Healing Course is a comprehensive, in-depth training designed for those committed to becoming professional Energy Healers, integrating energy healing into their current practice, or simply seeking to heal and transform their life through deep energetic alignment.

Delivered over 18 full-day sessions, the course includes:

- 6 private mentorship and coaching sessions (one per module)
- Intimate cohort of a maximum of 14 students
- WhatsApp support groups (peer, facilitator, and mentor)
- Practical healing assignments, class participation and assignment feedback
- Downloadable resources including workbooks, meditations and videos

You'll graduate with a full toolkit of healing techniques, a clear code of conduct, and the confidence to practice as a professional healer - or simply go into the world more energetically healed, aligned, and empowered - with ongoing aftercare and community support.

Who Is This For?

This course is for you if:

- You feel called to be a healer and support others on their healing journey
- You've already begun doing personal healing and inner work
- You have a spiritual practice and feel aligned with this path
- You're excited by the course content and its application
- You may simply be seeking personal transformation and alignment, without the goal of becoming a practitioner

If this sounds like you, read on ...
